OBJECTIVE

A highly motivated and detail-oriented computer science student with a strong foundation in full-stack web development and software engineering. Completed a Diploma in Vocational I.T. with hands-on experience in developing dynamic and secure web applications using Node.js, React.js, and MongoDB.

Passionate about learning new technologies, problem-solving, and contributing to innovative projects. Seeking an opportunity to leverage my technical skills and enthusiasm for web development to contribute to the growth and success of a forward-thinking organization

EDUCATION

Dayalbagh Educational Institute

Diploma in Vocational I.T. - 7.15 CGPA

2022 - 2025

Hindustan College Of Science and Technology

Bachelor of Technology (CSE)

2025 - Present

PROJECTS

Blogpost

Technologies Used: Node.js, Express.js, React.js, MongoDB, bcryptjs, Tailwind CSS

- Developed a full-stack blogging platform that allows users to register, log in, and create/manage blog posts.
- Implemented secure user authentication using bcryptjs for password hashing, ensuring the safety of user credentials.
- Designed the frontend with React.js and styled the UI with Tailwind CSS for a modern and minimalistic look.
- Built a RESTful API using Express.js to handle CRUD operations for blog posts.
- Utilized MongoDB for data storage and Mongoose for efficient querying and management of posts.
- Deployed locally for development and testing.

Shortly

Technologies Used: HTML5, CSS (Custom Properties, Flexbox), JavaScript, RapidAPI, GitHub

Pages

- Developed a responsive URL shortening web app as part of the Frontend Mentor challenge.
- Integrated a third-party URL shortening API via RapidAPI to handle user input and return shortened links.
- Implemented key features including short link validity duration, one-click copy to clipboard, and form validation with error messaging.
- Utilized mobile-first design principles and semantic HTML5 for accessibility and optimized layout across device sizes.
- Hosted the live project using GitHub Pages for free static deployment.
